ABOUT ME

I'm Frontend Developer with 1.5+ years of experience specializing in React and Next.js. Developed scalable web applications and enhanced performance, delivering smooth and efficient user interfaces.

SKILL

Language : Javascript

Framework : NextJS, Tailwind CSS

Library : ReactJS, GSAP, Socket.IO

Tools : Git, Github, Vusual Studio Code

EXPERIENCE

Resturant website

website link : <https://food-app-iota-umber-55.vercel.app/>

Github-link : <https://github.com/devjihad/Food-App>

Description : A restaurant website showcases menus, photos, and contact details, allowing customers to explore dishes, make reservations, order online, and learn about the restaurant's services and ambiance.

Hospital website

website link : <https://relive-frontend-steel.vercel.app/>

Github-link : <https://github.com/devjihad/Relivefrontend>

Description : A health service website provides medical information, online consultations, appointment booking, and access to healthcare resources, helping users manage their health and connect with professional medical support easily.
